

There have been an uptick in support calls regarding how to log in to PowerSchool. The mobile app is a bit confusing as it asks for a district code, but Bottineau's district code does not work as expected. This lack of functionality is due to the way the PowerSchool server works at the state level. The work around is outlined below with some pictures to walk you through the process.

**Note: The screen shots below are taken from an android device. Apple will be similar but don't expect the screens to be -exactly- the same.**

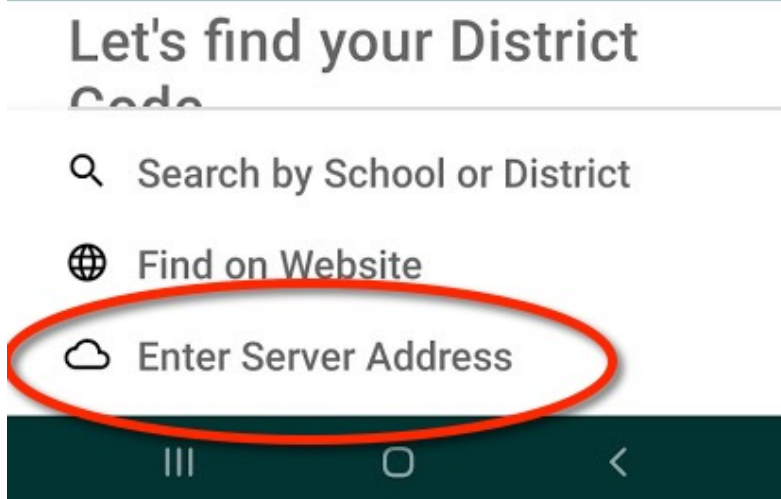

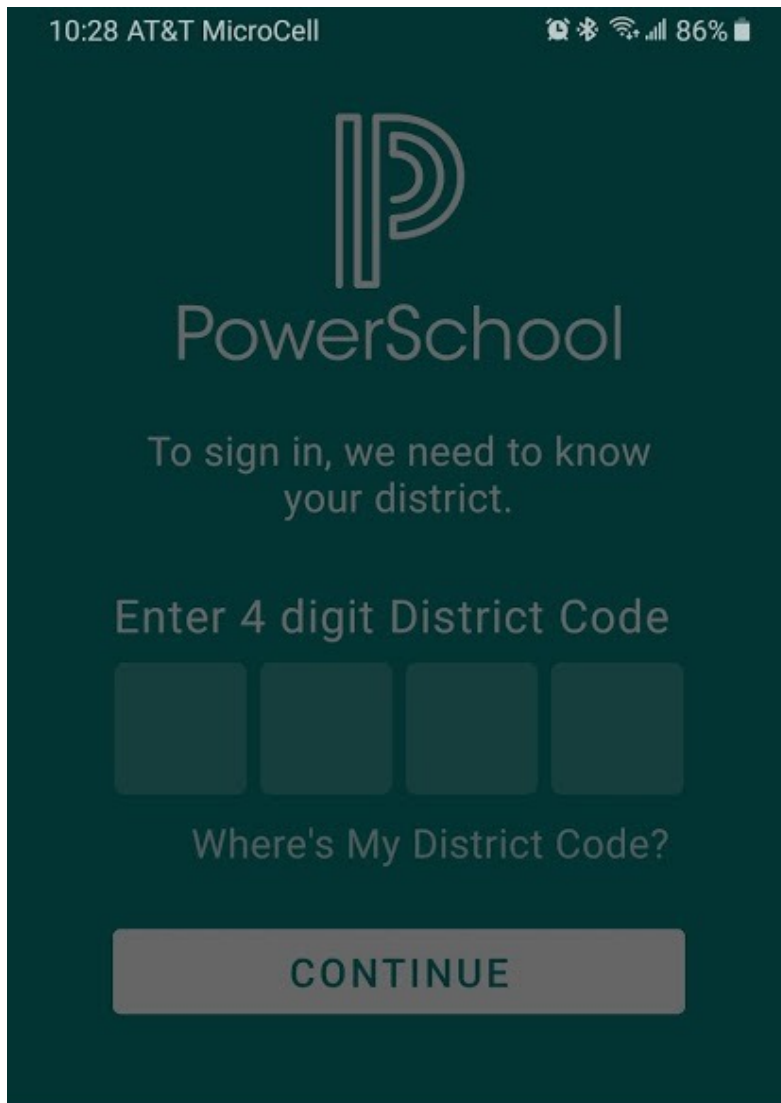

First, install the application from the app store or google play:

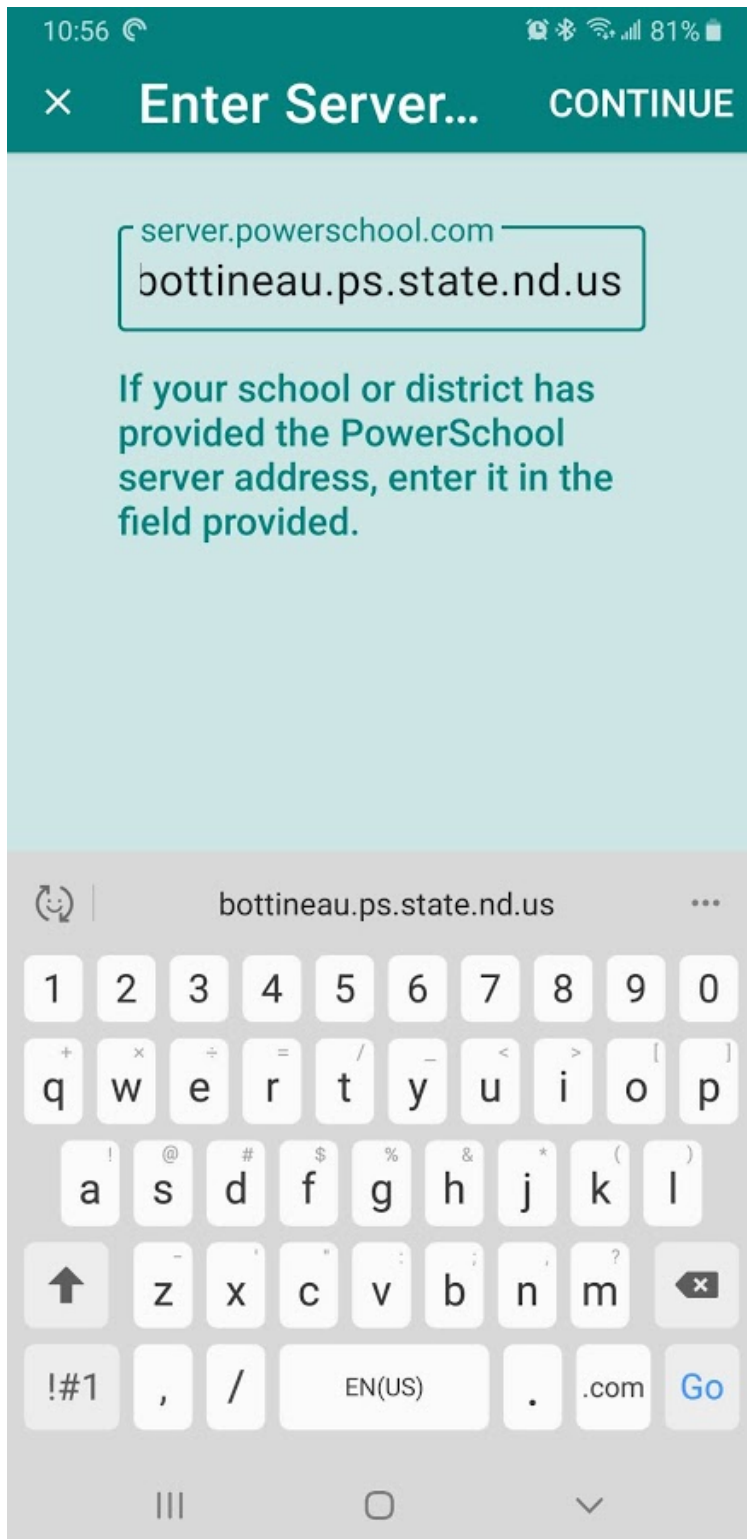

Once the app is installed, open it and you will see the familiar “what is your district code” screen. Choose the option for “Where’s my district code” as shown in the picture below.

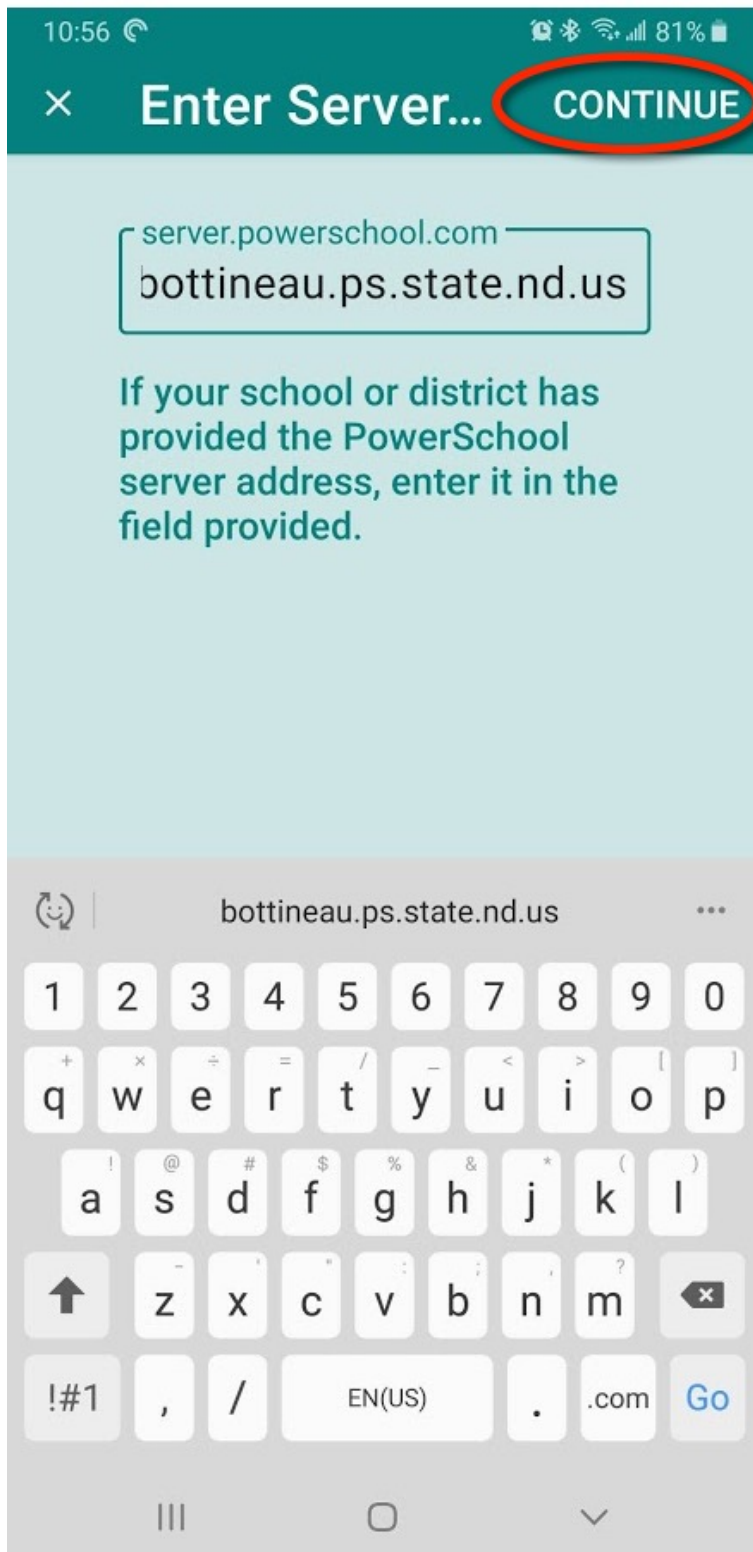

In the pop-up screen, choose "Enter Server Address"

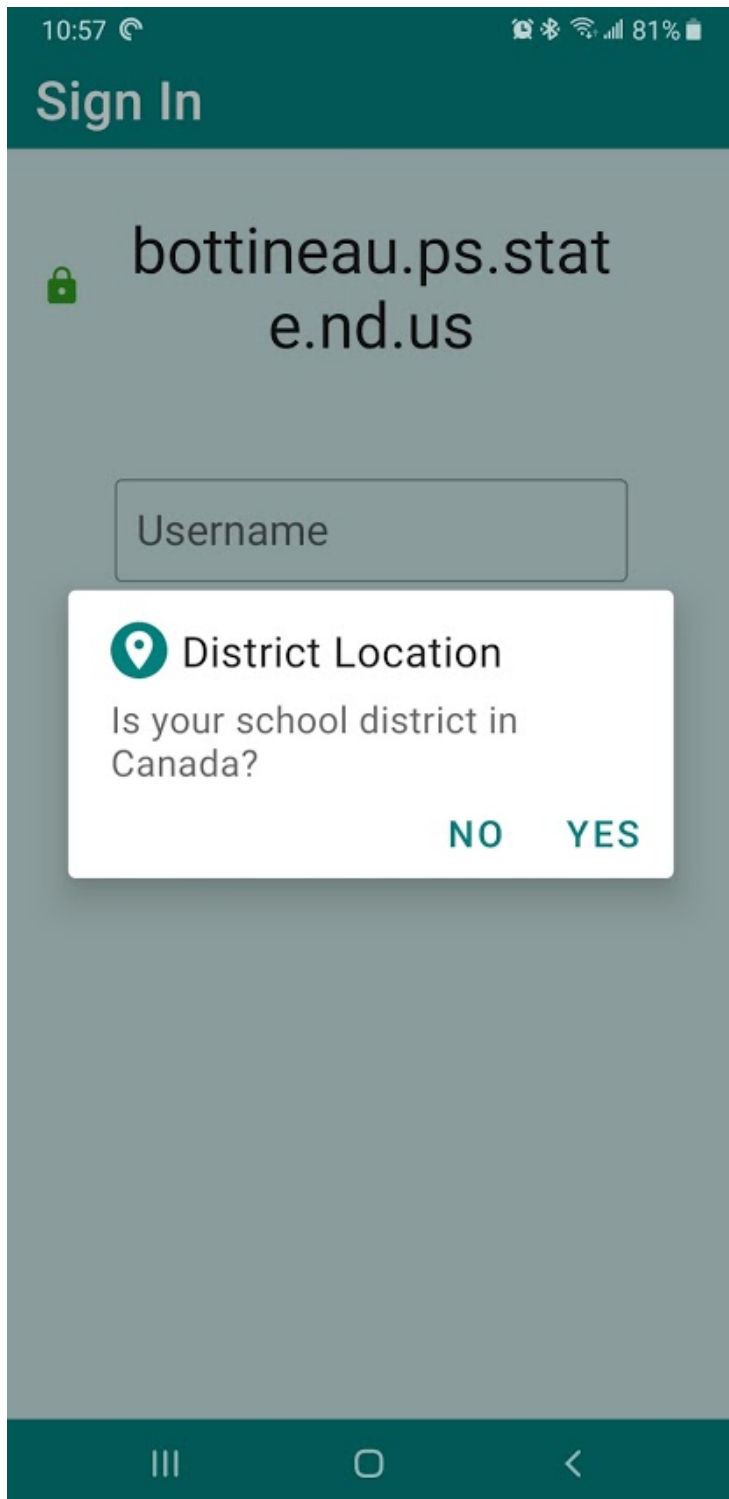

On the following screen, enter the server address: **bottineau.ps.state.nd.us**

Click "Continue"
